

AKG is a globally leading supplier of high-performance coolers and heat exchangers as well as customised system solutions that comply with the highest quality standards.

AKG has developed optimised heat exchangers for all kind of ORC applications.

High temperature radiator for internal combustion engines

Heat Exchanger for driver's cabin air

Condenser for ORC

Water-cooled intercooler

Low temperature radiator for cooling battery, e-machine, power electronics, intercooler

Chiller for battery cooling, as heat pump, or ORC heat exchanger

Battery cooling unit

Liquid cold plate for cooling power electronics
